Here's an interesting announcement: [www.scouts.ca/inside.asp?cmPageID=497](http://www.scouts.ca/inside.asp?cmPageID=497)

## **Scouts Canada and the Girl Guides of Canada Agreement**

For over 90 years, Scouts Canada and Girl Guides of Canada-Guides du Canada have shared a proud history and value system.

In that spirit, we are pleased to announce that Scouts Canada and Girl Guides of Canada have reached a memorandum of agreement that will allow our organizations to work together more cooperatively. Each organization can now utilize the other's properties and participate in the other's events without the need for members to sign hold-harmless agreements. Each organization has added the other organization's name to its liability insurance policy as an additional insured.

This agreement will allow more seamless interaction of both organizations' members, and will simplify the sharing of property resources.

*Does this mean that Scouts Canada wants you to use the Girl Guide Camps so that they have an excuse to sell off the Scout camps? Think about it. There are already horror stories circulating about the camps that are being closed and sold off because of "underuse" - some of them might have been YOUR favorite camps.*
